PROFILE

I am a creative web developer and designer with six years of agency experience. I provide rapid, robust and client-acclaimed front-end development optimizing user experience, search engine ranking, usability and accessibility. Able to complete projects efficiently and satisfy clients with attractive, user-friendly websites.

AREAS OF EXPERTISE

Project Management

Strong PHP Development

Strong Collaboration Skills

Excellent Problem-Solving Skills

Responsive Web Design

Self-Motivated

EXPERIENCE

Forthea Interactive Marketing

Web Developer   April 2016 - Present

Established client relationships with clients that had a subscription service where I learned about their business and provided insights on user engagement to help drive leads. Also developed and maintained WordPress sites in WP Engine where I handled all web IT related tasks such as email, DNS records and htaccess files.

- Work with Lead Developer to manage client expections and set project timelines along with Project Manager and Account Leads
- Maintain communication with Project Manager to ensure progress on all tasks/projects that may cause delays
- Focus on client's business to discover what their end-users are really looking for by utilizing tools such as Hotjar and Google Analytics
- Implemented version control system to help maintain files for multiple team members collaborating on the same project that is pushed to WP Engine servers

MMI Agency

Web Designer / Developer   May 2012 - April 2016

Worked with graphic designers and Digital Manager to establish web standards with the brand guidelines. Collaborated with Senior Developer and UI Designer to talk through our design process to ensure client is getting the most value from our service.

- Designed and developed custom WordPress themes, tailored to client needs
- Collaborated with Senior Developer in code reviews to build maintainable and scalable code
- Joined client meetings to learn about development of project scopes
- Led and spear-headed the development of MMI's intranet that acted as a repository for employee documents, general information and events calendar for internal use only
